Work Experience

Technology Consultant – IBM

December 2020 – August 2025

CLIENT ASSIGNMENTS

Banamex

Dec 2023 – May 2025

Development and maintenance of microservices-based enterprise solutions.

Nestlé

Mar 2022 – Nov 2023

Operational support for SAP Warehouse Management (WM) and logistics workflows.

Cemex

Dec 2020 – Mar 2022

Support for commercial operations and Accounts Receivable (SAP AR).

Academic Project

Cyberbullying Detection Game

- Designed an interactive game to detect potential cyberbullying risk in children based on in-game decisions.
- Applied a K-Nearest Neighbors (KNN) algorithm for emotional risk classification.
- Used the AMATE emotional model to evaluate emotional states.
- Focused on non-invasive, ethical, and privacy-aware detection.
